

Att A to EGMA 55807, 7 August 1961

9. UJDRUM Trips to Berlin - With reference to discussion on this subject at the previous meeting, FLEMING said he had been talking the matter over with BERHARDT and that both felt that if the unidentified man again met UJDRUM when the latter arrived at Tempelhof - it would be worth attempting to arrest the unidentified man if he also should appear when UJDRUM travels to Berlin in August. FLEMING said if things ever reach this point, and one could better guess if they would depending on the results of the next POB surveillance, it presumably also would be necessary to follow up quickly by arresting UJDRUM in West Berlin, etc.
